

QHSE Policy

Ideol strongly believes that our ability to deliver project on time, within budget, to the quality standards and with safe operations will contribute to the long term development of the offshore wind industry and is a key challenge to make our floating foundations the solution of choice.

Ideol is committed to strive for QHSE excellence in all our activities of design & methods engineering, procurement and operations and in particular, to:

- Identify, assess and mitigate the impact of any Quality issues, Health & Safety hazards and Environmental aspects through proper risk management;
- Define clear QHSE roles & responsibilities and ensure appropriate level of competency, training and awareness of our personnel;
- Comply with all applicable regulations and adopt offshore industry best practices;
- Engage and closely monitor our key Suppliers and subcontractors;
- Investigate any Quality or HSE related incidents or near-misses, identify and implement all appropriate corrective and preventive actions to avoid reoccurrence;
- Promote and raise QHSE profile amongst partners, key suppliers and subcontractors and share with them experience and knowledge of successful QHSE initiatives;
- Set Quality & HSE objectives and plans, measure results, assess and continually improve our Management System.
